# FLEXI®-Bank

**KBI Flexi®-Bank** provides a solution for anyone who needs specific slope stabilization and erosion control management. KBI's system redirects gravitational energy dispersing the force of running water across a broader area, thus reducing the erosion on hillsides and steep embankments. KBI Flexi®-Bank's environmental compatibility is a winning solution with habitat improvement, aesthetic value and ecologic utility benefits.

## ● KBI Flexi®-Bank benefits

- Environmentally sustainable
- Cost-effective low impact installation
- Protects water quality and ecologically sensitive areas
- Reduces maintenance and liability costs

## ● KBI Flexi®-Bank value

- Porosity rate of 2,000 gal/ft<sup>2</sup>/hr
- Relieves hydrostatic pressure
- Prevents bank degradation
- Made from recycled tires, aggregate & proprietary blend
- Contributes to LEED points and ADA design compliant projects
